

Addiction and The Family: When COVID, Addiction, and Isolation Intersect

Inova Act on Addiction Summit September 17, 2020

Kate Appleman MA, CAADC, CSAT, CMAT, CCS

Sr. Clinical Director of Men's Treatment and Support
Services

POLL

“Nothing in life is to be feared; it is only to be understood. Now is the time to understand more, so that we may fear less.”

— Marie Curie

Increase understanding of the impact COVID-19 has had on substance use and mental health.

Explore the impact COVID-19 has had on family systems where addiction, problematic use, or mental health concerns are present.

Process effective coping strategies and solutions to move from isolation and addiction, into connectedness and recovery.

THE IMPACT OF COVID-19

A Tale...

“It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness, it was the epoch of belief, it was the epoch of incredulity, it was the season of light, it was the season of darkness, it was the spring of hope, it was the winter of despair.”

- Charles Dickens

COVID-19: Uncharted Waters

None of us know what we are
doing.

“being new at something is the epitome of
vulnerability.”

- Brene Brown

Here's what we do know....

When stress and fear begin, maladaptive coping will kick in...

- Alcohol Sales rose 55% in one week
- Online alcohol sales are up 243%
- More people reportedly sought treatment for alcohol misuse in regions where the coronavirus has hit hardest. (SAMSHA)

Signs of Problem Drinking Behavior

- Using when you hadn't planned to/or more than intended
- Preoccupation
- Binge use
- Protecting the supply
- Using alone
- Self-medicating
- Blackouts
- Tolerance
- Values and behaviors don't match

There is A Tale of Two Epidemics.

- Overdose rates in large cities rise by 54% in 16 states
- National laboratory increase of 32% for non-prescribed Fentanyl and 20% for Methamphetamine from March through May 2020 (Millenium Health)

There is A Tale of Two Epidemics.

- Suspected drug overdoses rose 18% (University of Baltimore)
- The impact on drug trafficking
- Diminished supplies
- Lethal alternatives to Heroin

Social Media plays a role.

Social Determinants of health create greater vulnerability.

“conditions in the places where people live, learn, work, and play [which] affect a wide range of health risks and outcomes.”

For Educational Use Only

Social isolation increases the risk for addiction.

Families are suffering.

As Cities Around the World Go on Lockdown,
Victims of Domestic Violence Look for a Way
Out

IN BRIEF

A Double Pandemic: Domestic Violence in the Age of COVID-19

By Caroline Bettinger-Lopez, CFR Expert and Alexandra Bro | May 13, 2020

Governments worldwide have imposed lockdowns to contain the coronavirus, but those same restrictions have increased the risks associated with domestic violence, especially for women, children, and LGBTQ+ individuals.

PREVENTION/SOLUTION

What we need to know.

- We are not alone.
- More people are seeking treatment.
- Treatment centers have enhanced safety precautions during the COVID pandemic.
- There is more accessibility to care.

Addiction and Mental Health Impact on the Family

UNHEALTHY (Hurting)

Approval Earned = Love
Punishment / Shame
Judgment (good or bad)
Control
No Free Fun – Survival Only
Roles Assigned
Shame
HUMANS DOING

HEALTHY (Nurturing)

Unconditional Acceptance = Love
Discipline = Learning Experience
Tolerance / Forgiveness
Care
Spontaneous Fun
Roles Chosen
Humility
HUMANS BEING

Addiction and Mental Health Impact on the Family

UNHEALTHY (Hurting)

Secrets / Closed
Frozen Feelings
No Boundaries (Intellect, Emotion, Physical, Sex)
Indirect Communication
Blame
Denial / Delusion
Rigid Rules / No Rules / Chaos
HUMANS DOING

HEALTHY (Nurturing)

Open
All Feelings Allowed
Individuation
Direct Communication
Own Our Own Feelings
Truth Encouraged
Guidelines & Flexibility
HUMANS BEING

What to Focus On

Educate:

- Discuss concerns in a non-threatening, compassionate way
- Normalize the impact of stress and COVID and desire for change
- Describe how you feel and what you want

What to Focus On

Empower

- Normalize non-drinking
- Hold up a mirror
- Give them support to turn down a drink (both inside and outside of the home)
- Help with tools for minimizing pressure and encourage healthy relationships as isolation reduces

When to seek professional help

- When there is a loss of control
- When there are failed attempts to stop
- When there is danger of self/others
- When it is continuing to impact someone's goals/values/life
- When promises continue and are not kept
- When rules are made, then broken

Where to go..

- Seek an evaluation
- Find comprehensive treatment
- Find providers in network with your insurance
- Go to certified, licensed treatment centers and individuals that understand addiction
